(54) PORTABLE THIN MOUSE

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a portable thin mouse which can be used after being deformed into an easily operable shape.

SOLUTION: A plate-shaped button part panel 2 which can be freely opened and closed and fixed at a prescribed opening degree is formed at the front side of the upper face of a thin mouse case body 1 incorporating a movement detecting part, and a mouse button 2a is arranged on the upper face. Also, a plate-shaped rear panel 3 and side panels 4 and 5 which can be freely opened and closed and fixed at the prescribed opening degree are respectively formed at the rear side and right and left side faces of the upper face of the mouse case body 1. When each panel 2-5 is closed, the whole part can be deformed into a thin shape so as to be housed in a PCMCIA card slot. Also, when each panel 2-5 is opened, the whole part can be deformed into a shape capable of the easy operation of the mouse button 2a and an easy mouse moving operation.
